Enrichment Activities

Extended Project Qualification

Level 3

This Course

The Extended Project is a single piece of work requiring a high degree of planning, preparation, research and autonomous working. The students' choice of topic is free, although they must show that it is academically useful, either related to their current course of study, or their future career. It takes the form of a dissertation and will require a detailed preparation/planning stage, the production of the report and a presentation that sums up the report. It has been praised by universities for guiding students into higher education and carries UCAS points.

Why Extended Project?

Extended projects can help students to develop and demonstrate a range of valuable skills through pursuing their interests and investigating topics in more depth.

What will it develop:

- Research skills
- Proactive attitude
- Independent style of learning
- Good time management
- Organisation skills
- Ability to meet deadlines.
