

Curriculum Overview 2020-21

Year group: 11

Subject (include exam board if examination subject): Media Studies **Eduqas**

Periods per fortnight: 5

INTENT:

Powerful knowledge in Media Studies starts from the understanding that everything presented in the Media is a construction. The KS4 Media Studies curriculum is designed to encourage students to become critical receivers of the Media and question the Media texts they are faced with.

In Media Studies, students will have the opportunity to analyse a wide range of Media products ranging from print productions such as magazines and adverts through to audio visual texts (music videos, TV drama). This analysis is explored through the theoretical framework which includes Media language, audience, representation and industry. The practical component of the curriculum involves research, planning and production of a convincing Media product utilising appropriate conventions and using various software and practical equipment.

Whilst the texts at KS4 have been set by the examination board, Eduqas, students will explore a wide range of unseen texts which have been carefully selected to explore a range of genres and Media forms.

The course will provide students with a wide range of skills: resilience in the face of analysing unseen Media texts in examination conditions; evoke curiosity to discover more about the time periods in which a text was created; respecting the opinions of others whilst having the confidence to express their own; the ambition and integrity to create a Media product which presents fair and balanced representations.

IMPACT:

Ongoing formative assessment in lessons will provide students with the opportunity to demonstrate their analysis of the set texts and unseen Media texts from different Media platforms. Formative assessments will allow students to practice skills before the termly summative assessments at the end of each unit of study whilst also allowing teachers to address any misconceptions and areas of weakness. Summative assessments are designed in line with the Eduqas Media Studies specification to provide ample opportunities for students to familiarise themselves with examination style questions to ensure they are fully prepared for the GCSE examinations at the end of Year 11.
