

9th September 2026

Dear Parent / Carer,

Mathematical Studies – Recommended Calculator

As part of our Mathematical Studies enrichment course, students will be developing their understanding of a range of mathematical and statistical topics. To support their learning, we have arranged for students to purchase a school-approved scientific calculator at a significantly discounted price.

The recommended calculator is the Casio FX-991CW Plus, which includes a range of functions that will be particularly useful for Mathematical Studies, including probability and statistical functions.

The calculator is available to purchase through the school at a discounted price of £20.99 (usual retail price is £29.00).

If you would like your child to have this calculator, it can be purchased through ParentMail. Once purchased, your child will be able to collect their calculator from our Reprographics Office.

While purchasing a calculator is not compulsory, we strongly recommend this model as it will be a useful tool throughout the Mathematical Studies course and will support students in developing their confidence with statistical and mathematical calculations.

Thank you for your continued support.

Yours faithfully,

Mrs J Murray

Curriculum Leader, Mathematics
