

Assessment and Reporting 2022/2023

List of Alterations since 2021/22

- Teachers will no longer complete class tracking sheets – but will instead update context sheets twice a year
- MEGs in KS4/5 now based upon FFT Aspire data
- All assessments in KS3 have to allow students the ability to get to mastery
- Wave 1/2/3 interventions saved onto school MIS at each SDC point
- No longer a requirement to complete a department tracking sheet for KS3 – only KS4/5
- Core CLs to attend progress meetings

Objective: To ensure that relevant stakeholders are using information to make informed decisions that are appropriate to their role and sphere of influence

KS3 Baseline Assessments

We will use the GL Assessment KS3 Assessment Package. The assessment package will cover ability and attainment in core subjects, reading, spelling and pupil attitudes.

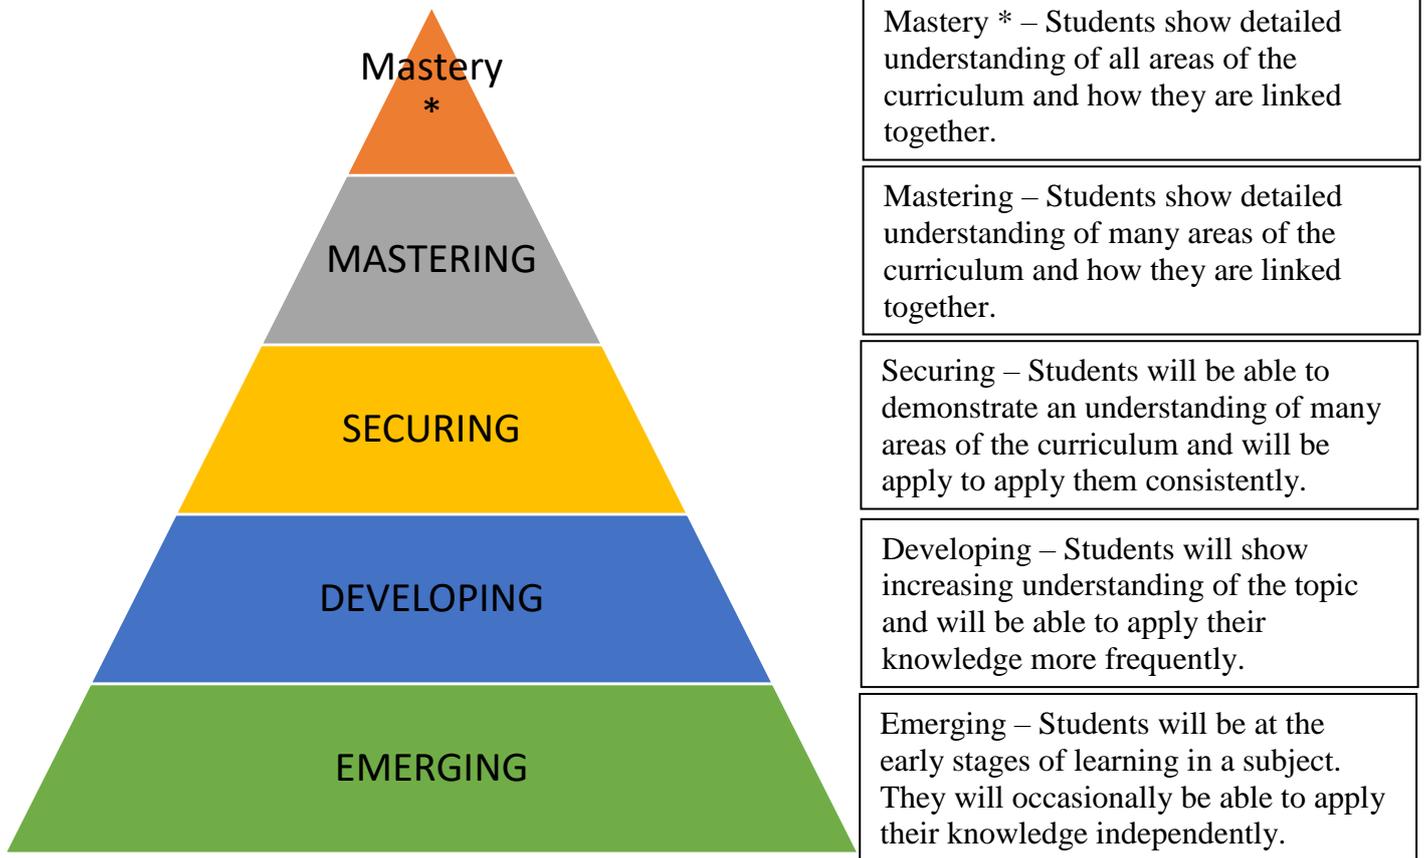

Students will sit the following tests:

- CAT4
- PTE (English)
- PTM (Maths)
- NRG (reading)

Data obtained from these tests combined with KS2 SATs data will be used to calculate minimum expected grades (MEGs), although these will not be published to students or parents

KS3 Assessments

We will be reporting following a Mastery grade of Emerging, Developing, Securing or Mastering. An explanation of what each grade means for each subject is available on the website. This gives parents and students more detailed information on exactly which areas the child needs to work on and how they can improve.

Minimum Expected Grade (MEG)

Minimum expected grades will be used internally only and not published to students or parents. These MEGs are based upon student's CATs tests. The CATs give a projected GCSE grade. This is then converted into MEGs using the following table:

Target	How it corresponds to 'Age related Expectations'	Potential GCSE Grade
M* – Mastery*	Exceeding the age related expectation	Grades 8 – 9
M - Mastering	Reached the age related expectation	Grades 5 – 7
S- Securing	Securing knowledge towards the age related expectation	Grades 3 – 4
D- Developing	Developing knowledge but below age related expectation	Grades 1- 2
E – Emerging	Emerging in knowledge of the curriculum	Below GCSE level

Student MEGs will be different for each subject, according to the CATs data.

Mastery Grade

Student mastery grades will be based upon students' current and past attainment. Teachers will enter mastery grades as and when the students achieve them and the WAGs will be adjusted throughout the year. Mastery grades will be based upon knowledge and skills, not just skills alone. **Students should be able to reach mastery in each assessment.**

Working At Grade

At least twice a year a synoptic summative assessment will be given which will interleave knowledge from the whole curriculum. These assessments will be graded according to the mastery levels and then compared to MEGs. These assessments should cover both skills and knowledge. **Students should be able to reach mastery in each assessment.**

'Where am I?' Statement

This gives parents an indication of whether their child is working at, above or below their MEG.

If a pupil is 'working at' it means they are achieving the same as students of a similar ability to them. They should be really pleased with this. Of course, if they are 'working above' this puts them above other students with the same prior attainment.

Attitude to Learning Score

This is an indication of how students have been working in lessons. The number based ATL scores have been replaced with words. Teachers complete this using the following criteria:

ATL	Description
Dedicated	The student is passionate about learning, goes beyond expectations as a matter of course. The student uses lessons as a springboard to explore content further. The student is highly self-motivated, is determined to master any areas of insecurity.
Committed	The student always meets or exceeds expectations in lessons, completing tasks enthusiastically and to their very best standard. Instructions are followed straightaway and appropriate, interested questions are raised. The student is eager to learn.
Compliant	The student meets expectations in lessons and does as required. Tasks are completed well and the teacher does not need to intervene to ensure compliance and co-operation.
Reluctant	The student fails to meet minimum expectations, rarely gets involved with learning, avoids completion of tasks and requires too much teacher time. Students who act to the detriment of others will automatically receive this grade.

KS4 Summative Assessments (two a year)

Minimum Expected Grade (MEG)

Students MEGs have been calculated using their KS2 grades. The MEGs will be calculated using students' KS2 scaled scores. FFT aspire will be used to calculate student's target grades.

Working At Grade (WAG)

Student WAGs will be based upon students current and past attainment. Students' most recent assessment score will be input into markbooks and a WAG will automatically be generated. These WAGs will be used internally for data tracking and will be reported to parents. End of term assessments will be cumulative in nature and should be based upon real assessment questions and criteria as much as possible. These end of term assessments should be fully moderated to ensure accuracy of data.

Teacher Prediction (TP)

Teachers will predict the students' end of key stage grade, taking into account their current and past assessments. Teachers should be able to justify why they have given the TP that they have. Curriculum Leaders are responsible for quality assuring TPs.

'Where am I?' Statement

This gives parents an indication of whether their child is working at, above or below their MEG. This will compare their MEG to their TP, not their WAG.

If a pupil is 'working at' their MEG, it means they are achieving the same as students of a similar ability to them. They should be really pleased with this. Of course, if they are 'working above' their MEG, this puts them above other students with the same prior attainment.

Attitude to Learning Score

This is an indication of how students have been working in lessons. The number based ATL scores have been replaced with words. Teachers complete this using the following criteria:

ATL	Description
Dedicated	The student is passionate about learning, goes beyond expectations as a matter of course. The student uses lessons as a springboard to explore content further. The student is highly self-motivated, is determined to master any areas of insecurity.
Committed	The student always meets or exceeds expectations in lessons, completing tasks enthusiastically and to their very best standard. Instructions are followed straightaway and appropriate, interested questions are raised. The student is eager to learn.
Compliant	The student meets expectations in lessons and does as required. Tasks are completed well and the teacher does not need to intervene to ensure compliance and co-operation.
Reluctant	The student fails to meet minimum expectations, rarely gets involved with learning, avoids completion of tasks and requires too much teacher time. Students who act to the detriment of others will automatically receive this grade.

KS5 Summative Assessments (two a year)

To fit in line with the rest of the school, KS5 will use MEGs, WAGs and TPs.

Minimum Expected Grade (MEG)

Students MEGs will be calculated using their KS4 data and FFT Aspire. These ensure that students are expected to make good progress, in line or better than that of national.

Working At Grade (WAG)

Student WAGs will be based upon students current and past attainment. Students' most recent assessment score will be input into markbooks and a WAG will automatically be generated. These WAGs will be used internally for data tracking and will be reported to parents. End of term assessments will be cumulative in nature and should be based upon real assessment questions and criteria as much as possible. These end of term assessments should be fully moderated to ensure accuracy of data.

Teacher Prediction (TP)

Teachers will predict the students' end of key stage grade, taking into account their current and past assessments. Teachers should be able to justify why they have given the TP that they have. Curriculum Leaders are responsible for quality assuring TPs.

'Where am I?' Statement

This gives parents an indication of whether their child is working at, above or below their MEG. This will compare their MEG to their TP, not their WAG.

If a pupil is 'working at' their MEG, it means they are achieving the same as students of a similar ability to them. They should be really pleased with this. Of course, if they are 'working above' their MEG, this puts them above other students with the same prior attainment.

Attitude to Learning Score

This is an indication of how students have been working in lessons. The number based ATL scores have been replaced with words. Teachers complete this using the following criteria:

ATL	Description
Dedicated	The student is passionate about learning, goes beyond expectations as a matter of course. The student uses lessons as a springboard to explore content further. The student is highly self-motivated, is determined to master any areas of insecurity.
Committed	The student always meets or exceeds expectations in lessons, completing tasks enthusiastically and to their very best standard. Instructions are followed straightaway and appropriate, interested questions are raised. The student is eager to learn.
Compliant	The student meets expectations in lessons and does as required. Tasks are completed well and the teacher does not need to intervene to ensure compliance and co-operation.
Reluctant	The student fails to meet minimum expectations, rarely gets involved with learning, avoids completion of tasks and requires too much teacher time. Students who act to the detriment of others will automatically receive this grade.

Time-line for KS3 Summative Assessment

- Students complete their work throughout the course and the data should be put into school MIS when it is completed.
- **Students who have not met their MEG should be given the chance to redo their work and improve**
- Teachers ensure all data is put into school MIS, including ATLS and interventions.
- CLs to check the data is all completed by the Friday of week 3
- CLs to quality assure all data
- Modertion is completed in Monday department meeting
- Data is adjusted where necessary
- Teachers **update context sheets**

- Reports go home on Monday
- Wednesday - Progress Meeting. Focus on key groups and trends in data
- Tuesday - SLT Meeting - discussion of data trends
- Evaluation of previous interventions

Summative Assessment Preparation

KS4 and KS5 assessments should have a two-week preparation time built in where the following will be covered:

Essential - RAG content	Desirable
Revision Techniques	Issue specification
Discuss answers in groups	Students devise and answer replica questions
6 stage extended writing	Provide resources for revision
Walk and Talk test	Lesson time for active revision

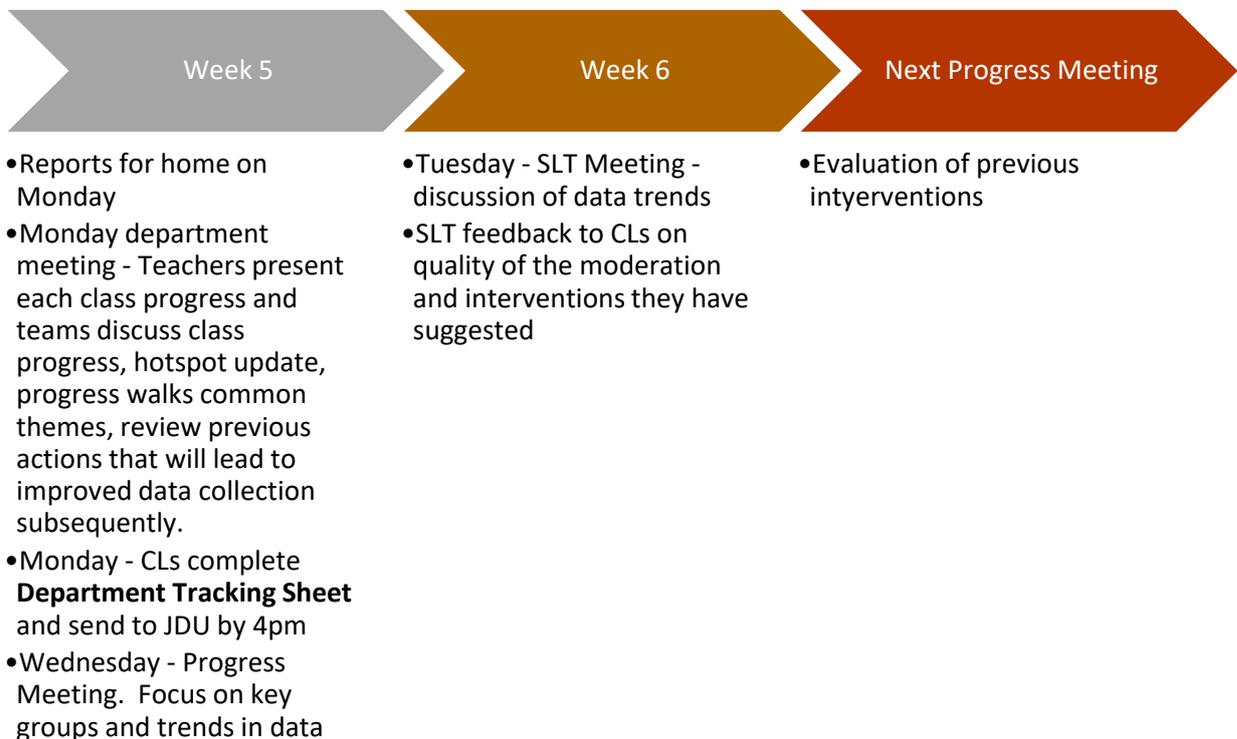

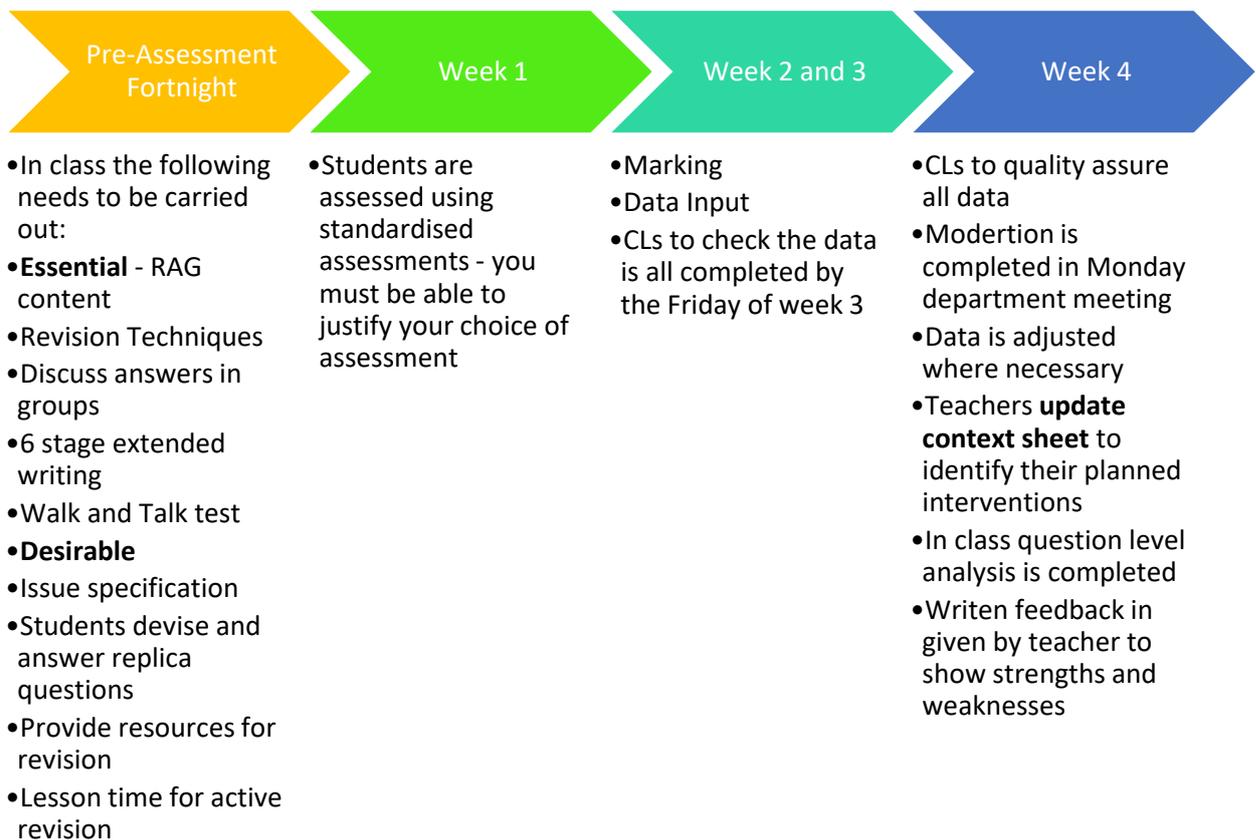

This is not applicable to KS3 as the assessments will occur throughout the course.

Post Assessment Feedback

In KS4 and KS5 assessments should have a period of feedback and reflection that covers the following:

Essential -
Question Level analysis
Written feedback to show strengths and weaknesses

Time-line for KS4/KS5 Summative Assessment

Summative Assessment Schedule

The full assessment schedule is published on the google calendar. These assessments are not listed separately here in case they change throughout the year; this will be avoided but may be necessary due to extenuating circumstances, such as second waves of Covid-19 lockdowns.

Mock Examinations

All mock examinations in year 11 and 13, should use real examination papers from the 2022 series. The 2022 examination papers should not be used for anything else and should not be released to students. The real mark schemes should be used as well as the published grade boundaries to get as full a picture of the students' true ability. If there are areas in the paper that students haven't yet completed it is OK to leave sections out as long as you can justify why.

Mock examinations will be held:

Year Group	1 st Mock Date	2 nd Mock Date
Year 11	Monday 31 st Oct 2022 - Friday 11 th Nov 2022	Monday 27 th Feb 2023 – Friday 10 th Mar 2023
Year 13	Monday 31 st Oct 2022 - Friday 11 th Nov 2022	Monday 27 th Feb 2023 – Friday 10 th Mar 2023
Year 10	Monday 12 th June 2023 Friday 23 rd June 2023	
Year 12	Monday 12 th June 2023 Friday 23 rd June 2023	

Formative Assessments

Please see individual department's assessment policies in regards to quality and quantity of formatively assessed work.

Progress Meetings

After each assessment point in the school calendar the progress team will meet.

To be present at Progress Meetings

- AHT curriculum
- DHT
- HT
- SENDCO
- Head of Year
- CLs or Maths, English and Science

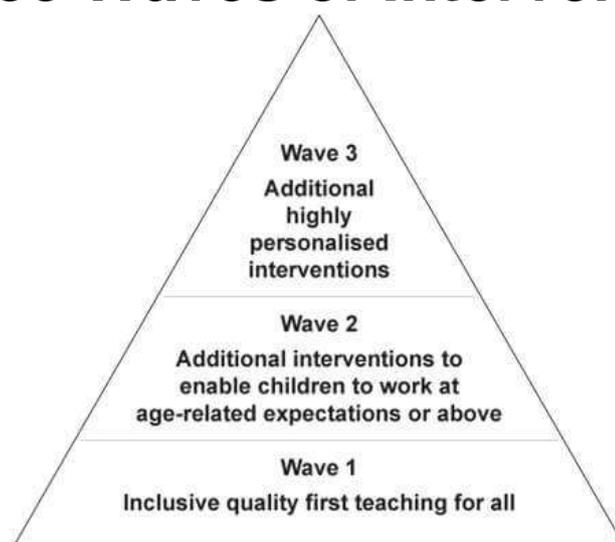

At progress meetings, key strategies and trends will be discussed and it will give time for discussions about some of the most underperforming students.

Structure of Progress Meetings

Please note that the agenda for Progress Meetings is subject to change throughout the year according to identified trends in data and due to feedback from staff members. The below is a suggested agenda:

1. Evaluation of impact of previous interventions discussed at last progress meeting.
2. Meetings begin with data analysis, looking at how far students are from their target grade. Data on key students will be provided to the team in advance by the AHT (Curriculum) so that the meeting is focused on key students.
3. The attendees will use the meeting to talk through the situation for each pupil, including the cause of their difficulties and perceptions on why they are not making the progress they need to. They will then look to suggest possible strategies to support each pupil and if these have not been given specific interventions to put a plan in place. Wave 1/2/3 interventions will be considered and assigned.

Three Waves of Intervention

<p>Wave 1 – Quality First Teaching</p> <p>Examples of provision (these will be supplemented as new effective interventions are proposed)</p>	<p>Wave 2 – Additional Interventions to Enable Students to Work at Age Related Expectations or Above</p> <p>Examples of provision (these will be supplemented as new effective interventions are proposed)</p>	<p>Wave 3 – Additional Highly Personalised Interventions</p> <p>Examples of provision (these will be supplemented as new effective interventions are proposed)</p>
<ul style="list-style-type: none"> • Differentiated curriculum • Differentiated delivery • The curriculum is relevant and exciting • A range of questioning strategies are used to encourage deeper thinking • Personalised learning approaches are used • Accurately paced lessons • All students set appropriately challenging work • Writing frames • Written and spoken instructions presented in a way that enables all students to access the curriculum • Peer learning, through groups and pairs • In class teaching assistant support • Guided teaching • Specialist equipment and resources, suitable to individual needs are used to aid learning such as coloured overlays • Children self-assess their own learning • A focus on Growth Mindset • Differentiated curriculum planning, activities, delivery and outcome • Increased visual aids / modelling etc • Access to ICT 	<ul style="list-style-type: none"> • Learning mentors • Booster sessions • Revision classes • Specialised extended learning tasks • Additional tutor group support 	<ul style="list-style-type: none"> • 1:1 support outside of the normal classroom, for example bespoke programmes for literacy or maths • External programmes such as Nulogic • Targeted group revision or catch up classes • Individual arrangements for assessments

Department Progress Sheet (KS4/5 only)

Question	Answer	Response from SLT
Date		
Name of CL		
Year Group		
What department are you?		
What is your expected progress score?		
How are your PP students achieving compared to your non-PP? What are the reasons for the gaps? What is being done to address these gaps?		
How are MA/MA* achieving compared to non-MA/MA* students? What are the reasons for the gaps? What is being done to address these gaps?		
How are SEN students achieving compared to non-SEN? What are the reasons for the gaps? What is being done to address these gaps?		
How are boys achieving compared to girls? What are the reasons for the gaps? What is being done to address these gaps?		
How have you assessed the students?		
What moderation has taken place?		
For the students who have made more than sufficient progress what has made the difference?		
For students who have not made enough progress, what core barriers are preventing them from moving on and how can you intervene?		
Which students do now need intervention? How will this be organised and what will the planned programme include?		

Head of Year Progress Sheet (all year groups)

Question	Answer	Response from SLT
Date		
Name of HOY		
Year Group		
What interventions have currently been run for this year group and what has their impact been?		
Which students do you feel now need intervention? How will this be organised and what will the planned programme include?		

SLT Progress Sheet (all year groups)

Question	Answer	Response from Governors
SLT present at SLT meeting		
Date		
Year Group		
What is the expected progress score?		
How are the PP students achieving compared to the non-PP? What are the reasons for the gaps? What is being done to address these gaps?		
How are the MA/MA* achieving compared to non-MA/MA* students? What are the reasons for the gaps? What is being done to address these gaps?		
How are SEN students achieving compared to non-SEN? What are the reasons for the gaps? What is being done to address these gaps?		
How are boys achieving compared to girls? What are the reasons for the gaps? What is being done to address these gaps?		
How are HPA/MPA/LPAs achieving compared to each other? What are the reasons for the gaps? What is being done to address these gaps?		
Are there any particular trends in the data that need addressing? How will it be addressed and by who and by when?
