

Intent

The student will develop an idea for a project that they wish to carry out and discuss their ideas with a supervisor. Students will then:

- carry out research to enable them to sufficiently develop project aims and objectives to make a formal project proposal**
- document their planning and research within the Production Log**
- meet with the supervisor at specified meetings to discuss the project process and issues**
- carry out the project by achieving the aims and objectives they set themselves**
- prepare and give a presentation about the project product and process (including a question and answer session)**
- evaluate the project process**
- submit evidence for assessment (production log and project product)**

The course will develop key skills that include:

ITC skills

Research

Planning

Extended Writing

Drafting

Editing

Reviewing and Refining

Presenting

The course will give practical skills that are highly sought after by universities. In addition, the skills are equally transferable to apprenticeships and the world of employment.
