HOW TO LEARN IT...

SOME TIPS FOR HOW TO LEARN VOCABULARY

- Little and often: 10 minutes every day is better than hours at a time with long gaps in between.
- Don't overdo it – limit to 10 new words a day.
- Try to put words in to a sentence. Context helps you retain information.
- Look, cover, write, check.
- Get someone to test you.
- Learn word families.
- Make it interactive and colourful. Active learning is better than passively staring at a list of words.
- Put sticky notes around the mirror / by your bed.
- Make sets of cards to quickly test yourself – French one side, English on the other.
- Use apps and websites: Duolingo, Quizlet, Memrise etc.
- Don't waste time 'learning' words that you know well. It's cheating!
- Sadly, there is no shortcut, you just have to keep going. The more words you know, the more fluent you will be and the more you will understand when reading and listening.
