

CURRICULUM LEADER MATHS

January 2023

SALARY: TMS1 (£25,714) ~ UPR3 (£41,604)

PLUS TLR1 (£13,119)

Teachers' Pay Award Pending

An exciting opportunity has arisen and we therefore are seeking to recruit an excellent teacher as Curriculum Leader of Mathematics, to lead our developing department. The successful candidate will have a strong vision of how a curriculum drives successful learning, and a strong knowledge of subject-specific pedagogy. The school will support the successful candidate in their induction, and provide CPD to support in developing their leadership skills.

The successful candidate should be dynamic and enthusiastic putting Success for All at the heart of everything they do and are constantly at the forefront of new initiatives both department, whole school and within the wider community. The school has recently launched 1-1 devices, presenting fantastic opportunities for developing exciting and impactful teaching.

The Buckingham School is flourishing school, and student numbers have grown significantly in the last four years. The school encompasses a rich and harmonious community, and is committed to the development of all students with the majority staying on in the sixth form. Results have improved significantly in line with the school's improvement journey, and GCSE Mathematics results in summer 2022 were the best yet seen. Early FFT data shows the school leaping forward from the 2019 results.

After the experiences of Covid-19 in the last two years, the school is more committed than ever to a continuous staff and student wellbeing debate, not least regarding workload and working conditions of our staff.

Our students are eager to learn and you will be joining a talented team of staff who are leading improvements across the school. The Mathematics team is comprised of six teachers, a Lead Practitioner, an Assistant Curriculum Leader, and the Curriculum Leader themselves.

As a Curriculum Leader, you must be extremely motivated, have high professional standards and a proven track record of success at GCSE and 'A' Level. You will be responsible for ensuring consistently outstanding practice and taking a leading role in developing and enhancing teaching and learning across the department. As a Core CL, you will have opportunities to expand your experience to "whole school", when the time is right for you and your career aspirations.

In return we will offer you:

- A professional and supportive Maths Team
- A personalised approach to Professional Development
- A role in a school that has a clear vision
- Students with positive attitude and a willingness to succeed
- A supportive and inclusive staff environment

Please download the job description and the application required from school's website www.buckinghamschool.org and send your letter of application along with your completed application form, giving full contact details of two recent relevant professional referees (one of which is your current employer to: Mr Andy McGinnes, Headteacher, The Buckingham School, London Road, Buckingham, MK18 1AT or email to aallen@buckinghamschool.org

Closing date for application: Friday 30th September 2022 @ 9am

Interviews will be held during week beginning 3rd October 2022
